Our Guarantee

We guarantee our plants to be exactly as described in this catalog, grown from the best seed obtainable, true to name, hand selected, varieties labeled and carefully packed.

We guarantee to ship your order promptly, and deliver the plants to you in perfect condition. If you are not satisfied on receipt of order, we will replace free of charge, or refund your money, provided you notify us within 10 days after receipt.

We send you only the highest quality plants, and gladly stand back of them. However, weather, soil, and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

PIEDMONT OFFERS YOU:

- Field-grown Vegetable Plants that will save you Time and Money.
- Guaranteed quality at reasonable prices.
- Guaranteed delivery in perfect condition.
- Bargain Special Offers.
- Valuable Premiums with your order.

PIEDMONT PLANTS PRODUCE

It is a well established fact that the earliest crops of vegetables are the most profitable. Both the home gardener and the market gardener try to grow early vegetables. A week or two often means the difference between a profit and a loss.

For 35 years we have been growing dependable early Vegetable Plants. A few dollars spent for our hardy, field-grown plants is the best and cheapest way to get an early start with your vegetable crops.

PIEDMONT PLANTS are grown from the best strains of seed on disease free land, are thoroughly sprayed for insects and diseases, and are guaranteed to be exactly what you order and to reach you in good condition. **PIEDMONT PLANTS PRODUCE EARLIER AND BETTER CROPS.**

Our Guarantee on the opposite page is your protection. You must be satisfied.

We are deeply appreciative of the fine business given us last year by our loyal friends and customers. We hope that you were so well satisfied that you will not only come back to us this year but bring a friend. Your good will is our most valued asset, and it is our desire to continue to merit it.

Yours very truly,

PIEDMONT PLANT CO.

E.P. DuVernet

Field of Frost-Proof Cabbage Plants

PIEDMONT FIELD-GROWN PLANTS

The market gardener who grows vegetables for early market knows how important it is to get crops on the market early, if large profits are to be realized. The home gardener also wants early vegetables. To get an early start it is necessary to grow seedlings in hot beds, transplanting them to cold frames to harden. The best and cheapest solution to the problem is to set Piedmont Field Grown Plants.

We offer in this catalog a line of high grade Field Grown Vegetable Plants for early setting which we guarantee to give satisfaction. The business of growing and shipping vegetable plants has developed tremendously in the past 20 years. Hundreds of millions of plants are shipped annually to truckers, market gardeners, and home gardeners, who find it more profitable to buy plants than to attempt to grow them.

QUALITY IN PLANTS

SUITABLE CLIMATE NECESSARY. In the middle south the climate is adapted to growing plants in the open, which are hardy enough to set in the open farther north. Our farms are located where there is enough cold weather to grow plants hardy enough to set in the open field.

SELECTED PLANTS. Piedmont Plants are grown from high grade seed, and will be found true to type and variety. Our plants are hand selected, and are large enough to set in the field. No small, inferior, trashy plants shipped. We ship you the kind you order, properly labeled, and full count guaranteed.

SATISFACTORY DELIVERY. Some people hesitate to order plants from a distance, because they are afraid that tender plants cannot be delivered in good condition. We have shipped our plants successfully for many years all over the United States. We have satisfied customers in every state. We guarantee to deliver the plants you order in perfect condition. If you are not satisfied on delivery, we will replace your order.

Our Plants are Hand Selected

REAL FROST-PROOF CABBAGE PLANTS

The Frostproof Cabbage Plant has become so well known that it is hardly necessary to point out its advantages.

On our farms the soil and climate are especially adapted to the growing of hardy, tough, healthy cabbage plants. The plants make a slow growth during the early part of the winter and spring, and soon become very tough and hardy. They will stand a temperature of 20 degrees above zero without injury and can be shipped to territory with a colder climate. Light snows, sleet, and moderate freezes will not hurt them, and they can be set in the open four to six weeks earlier than hotbed plants. The top of the plant does not grow, but the root becomes established, enabling the plant to make a rapid start, and mature headed cabbage two or three weeks earlier.

Piedmont Field-grown Frostproof Cabbage Plants will produce bumper crops early enough to get top prices.

VARIETIES

EARLY JERSEY WAKEFIELD—65 days from plants. Many market gardeners consider this the best early cabbage in cultivation. The head is pointed in shape, medium size, and is white, solid and tender. Plants ready Jan. 1 to July.

CHARLESTON WAKEFIELD—75 days from plants. This is a selection from the Early Jersey Wakefield, a week to ten days later, but makes a much larger head. It stands pre-eminent as the best spring cabbage for the South. The heads are pointed and large in size for an early cabbage. Plants ready Jan. 1st to July.

GOLDEN ACRE—65 days from plants. An extra early Copenhagen Market with a smaller head, but matures a little earlier. Heads are round and solid. Plants ready Jan. 1st to July.

COPENHAGEN MARKET — 70 days from plants. This is the earliest of the round headed varieties, and produces larger heads than any cabbage equally as early. The heads are heavy in weight, ball shaped, solid and firm, fine texture, and splendid quality. Plants ready Jan. 1 to July.

EARLY FLAT DUTCH—85 days from plants. A medium early variety, excellent for shipping and kraut. The heads are very solid and distinctly flattened on top, large in size, and excellent quality. Plants ready Jan. 1 to July.

DANISH BALLHEAD or HOLLANDER—100 days from plants. Most widely used and the best of the late cabbages; desirable for shipping, storage, and for kraut. Heads deep round, very hard and decidedly compact. Plants ready Mar. 15 to July.

MAMMOTH RED ROCK — 100 days from plants. Large, round heads, solid as a rock, and red throughout. Used extensively for pickling. Plants ready Mar. 15 to July.

YELLOWS OR WILT RESISTANT VARIETIES

These varieties will produce a good crop of cabbage on land infested with yellows disease where ordinary varieties fail. Ready March 15th.

RESISTANT DETROIT. A Yellows resistant Golden Acre type.

MARION MARKET. A Yellows resistant Copenhagen Market type.

WISCONSIN HOLLANDER No. 8. A Yellows resistant Danish Ballhead type.

Onion Plants Showing Large Stalks and Healthy Roots

FROST-PROOF ONION PLANTS

Southern grown onion plants are no longer an experiment. Large quantities are set out every year, and they are rapidly displacing sets. They will grow large, sweet onions early, and are good keepers. They produce onions two to three times larger than sets, and seldom run to seed. They can be set early, the same time you would put out sets or cabbage plants. Therefore we strongly advise you to use our plants instead of sets, whether for the market or home use. Piedmont Onion Plants are grown from the very best seed, and will be found true to name. Ready Jan. 1st to July.

VARIETIES

YELLOW BERMUDA. The most popular and widely planted of the Bermuda varieties. It is sometimes called the White Bermuda although it is a light yellow or straw color. This is a thin flat shaped onion, and very sweet; many people eat them like an apple.

CRYSTAL WAX BERMUDA. One of the most attractive onions grown. It is clear, waxy white onion, and has the same delightful mild flavor as the Yellow Bermuda. It is the same shape as the Yellow Bermuda.

PRIZETAKER. The largest and most handsome of the yellow varieties. It is light yellow in color and globe shaped, and grows to a large size. The flesh is white, and mild, and it is a good keeper.

VALENCIA or SWEET SPANISH. A globe shaped onion, light yellow in color, and grows as large as the Prizetaker. It is mild in flavor, a good yielder and a splendid keeper.

PIEDMONT LETTUCE PLANTS

While not quite so hardy as cabbage and onion plants, our Lettuce plants will stand considerable frost and cold weather. Good head lettuce can be grown in the home garden. Set out some of our plants this year instead of buying your lettuce. Set out at about the same time as cabbage. Plants ready Jan. 1st to July.

VARIETIES: Iceberg, New York Improved, New York No. 12, Imperial 44, Imperial 847.

PRICES: By Mail Postpaid—100 for 50¢; 500 for \$1.50; 1,000 for \$2.50. By Express or Parcel Post Collect—500 for 90¢; \$1.75 per 1,000; 5,000 for \$7.50.

PIEDMONT BROCCOLI PLANTS

Ready April 1st to July—Calabrese Improved, Green Sprouting. A delicious vegetable, steadily gaining in favor. Similar to cauliflower, but harder.

PRICES: By Mail Postpaid—100 for 50¢; 500 for \$1.50; 1,000 for \$2.50. By Express Collect—\$1.75 per 1,000; 5,000 for \$7.50.

PIEDMONT BRUSSEL SPROUT PLANTS

Ready April 1st to July. Our brussel sprout plants are hardy, and may be set earlier than home grown plants. They make small cabbage heads close to the stalk. Variety: Long Island Improved.

PRICES:—By Mail Postpaid—100 for 50¢; 500 for \$1.50; 1000 for \$2.50. By Express Collect — \$1.75 per 1000; 5000 for \$7.50.

PIEDMONT BEET PLANTS

Set our beet plants for early crop. Varieties: Detroit Dark Red, Crosby Egyptian. Ready April 1st to July.

PRICES: By Mail Postpaid—100 for 50¢; 500 for \$1.50; 1,000 for \$2.50. By Express Collect—\$1.75 per 1,000; 5,000 for \$7.50.

SPECIAL PREMIUMS

Because we can handle and ship larger orders with little extra expense, we are offering the following Special Premiums to encourage larger orders. Let your neighbor help you. If your own requirements for plants do not amount to \$3.00 or more, get your neighbor to join you in ordering so that you may receive the extra plants.

On orders of \$3.00 to \$5.00 you may add to your order free, 100 extra plants of any variety contained in your order.

On orders of \$5.00 to \$9.00 you may add to your order free, 200 extra plants of any variety contained in your order.

On orders of \$10.00 and up you may add to your order free, 400 extra plants of any variety contained in your order.

Note: Please do not select for your extra plants a variety not contained in your order.

PREPAID EXPRESS CHARGES

We advise shipment of plants by express when possible, as it is cheaper in lots of 2,000 and over, and plants usually arrive in better order by express than by Parcel Post. We give below a scale of express charges per 1,000 plants to different states. We will prepay your order by express if you add the right amount according to this scale to your remittance for plants at Express Prices. You can of course have your order shipped express charges collect, in which case the scale below will show about what you will have to pay on arrival. We do not prepay charges if you do not send the money with the order.

Marglobe Tomato

PIEDMONT FIELD-GROWN TOMATO PLANTS

During the past five years there has been a tremendous increase in the use of Southern field-grown tomato plants. They have proven to be the most satisfactory and economical solution of the tomato plant problem in the north both for large canning factories and home gardeners.

Piedmont Field-Grown Tomato Plants are grown in the open field where they are acclimated to outdoor temperature, which enables them to be set in the open field. They are not frostproof as it is impossible to grow frostproof tomato plants. However, they are not like the tender seedlings you get from a greenhouse, but are large, stalky plants, hardy enough to make a quicker start than greenhouse plants.

Our field-grown tomato plants are grown from the best certified seed, which is disinfected before planting on disease free land. They are thoroughly sprayed by high pressure sprayers from the time they come up. This insures you true to name, disease free plants.

Our plants are carefully selected in the field as they are pulled one at a time. Each plant has a well developed root system. Many people think tomato plants are too tender a plant to ship long distances successfully. However, the way we wrap them with damp moss and paper, and pack them in special crates, we can deliver them in good condition anywhere east of the Rockies.

VARIETIES

EARLIANA. The Earliana is probably the earliest tomato grown, and is very popular for early market. The fruit is deep scarlet, medium to large size, and smooth for an early tomato.

JOHN BAER—An early maturing variety, excellent for gardeners serving local markets. Vine of medium height and open growth. Fruit medium size, semi-globular, very attractive, bright scarlet, smooth and quite firm.

BONNY BEST. A fine variety for early market and home garden. Vines are vigorous and fruit bright scarlet in color, and uniform in ripening.

PRITCHARD or SCARLET TOPPER. A wilt resistant variety similar to the Marglobe but earlier. It is disease resistant and very productive. The fruit is scarlet, large, smooth and globular in shape.

MARGLOBE. Wilt resistant tomato developed by U. S. Department of Agriculture. Fruit medium size, smooth and solid; globe shape, scarlet color, good shipper. Has become very popular for main crop.

RUTGERS. A new wilt resistant variety rapidly coming into favor in the eastern canning sections. Similar to the Marglobe in many characteristics, it produces slightly larger fruit and more foliage. Scarlet in color, it ripens from the inside out.

GREATER BALTIMORE. A mid-season variety, very popular for main crop and canning. Probably more of this variety used by large canners than any other variety. Very dependable, producing extra heavy crop of large firm tomatoes.

MASTER MARGLOBE. A special strain of Marglobe selected for uniformity and shape of the fruit. A highly bred strain of this variety with all the desirable Marglobe qualities.

INDIANA BALTIMORE. A special strain of Baltimore developed in Indiana and popular in the mid-west.

STOKESDALE. A new second early tomato, similar in maturity and use to Bonny Best, but larger and heavier yielding. Has many qualities required by market gardeners and green-wrap trade.

Bunch of Potato Plants

SWEET POTATO PLANTS

Our Potato Plants are grown from selected seed stock grown on our own farms. They are treated for all kinds of disease, and are government inspected. Our customers are therefore protected from the many kinds of potato plant diseases which are becoming so prevalent throughout the South.

Variety: Porto Rico — This is a southern Yam potato with rich, deep yellow meat, sweet and juicy. It is the most popular of the yam potatoes, and is an enormous yielder. It can be grown successfully in many sections of the North, and we recommend it to those who have never tried the southern yam. Ready April 20 to July 1.

HOW TO GROW SWEET POTATOES: A warm, well drained, sandy loam is the best land for sweet potatoes. After plowing and harrowing thoroughly, lay off rows 3 feet apart and drill 500 to 1,000 pounds of commercial fertilizer, containing plenty of potash but not much nitrogen. List on the fertilizer, and knock off the top of the ridge. Set the plants 15 inches apart. Cultivate thoroughly until the vines begin to run. Harvest when mature or when frost kills the vines. Store in a warm cellar or building where the temperature does not go below 50 degrees.

PIEDMONT PEPPER PLANTS

Our Pepper Plants, like tomato plants, are suitable for setting in the open field after danger of frost is over. Our plants are field-grown, and therefore more hardy than hotbed plants. Set these plants instead of trying to grow pepper from seed, and you will be surer of an early crop. Ready April 15th to July.

HIGH GRADE VEGETABLE PLANTS

Albany,

Georgia

VARIETIES

SWEET VARIETIES

RUBY KING. 69 days from plants. Excellent for home and market garden. Fruits tapering, dark green, flesh is thick and sweet.

CALIFORNIA WONDER. 75 days from plants. The outstanding sweet variety for market gardeners and shipping. Fruits four lobed and chunky, large size; flesh thicker than any other variety, sweet and mild.

WORLD BEATER. 75 days from plants. A valuable variety of sweet pepper for market gardeners and shipper. Fruit elongated like Ruby King, but larger. Mild flavor.

PIMENTO. 73 days from plants. A canning variety, good also for home and market garden planting. Fruit heart shaped, dark green changing to bright crimson.

HOT VARIETIES

HUNGARIAN YELLOW WAX. 65 days from plants. A first early hot variety for market gardeners and canners. Fruits slender and tapering, color waxy yellow changing to bright crimson at maturity.

LONG RED CAYENNE. 70 days from plants. A favorite hot variety. Fruits long and tapering.

PRICES: By Mail Postpaid—50 for 50c; 100 for 75c; 500 for \$2.00; 1,000 for \$3.00. By Express Collect—\$2.50 per 1,000; 5,000 for \$10.00.

Pepper Plants
Wrapped for
Shipment.

PIEDMONT EGGPLANT PLANTS

Like the tomato and pepper plants, our Eggplant Plants are field-grown, and have the same advantages over trying to grow eggplant from seed. We can supply you with large, healthy plants with well developed root systems. Ready April 15th to July.

BLACK BEAUTY. 80 days from plants. The best all around variety for home gardeners and truckers. Fruit large egg shaped, dark purple in color, and hold up well after picking.

PRICES: By Mail Postpaid—50 for 50c; 100 for 75c; 500 for \$2.00; 1,000 for \$3.00. By Express Collect—\$2.50 per 1,000; 5,000 for \$10.00.

Eggplant
Plant

INSECTS and DISEASE

In order to ship clean plants, free from insects and disease we use the latest and most improved spraying and fumigating equipment. Above we show one of our power sprayers, spraying young tomato plants just up. Below we show the latest in aphis control, a fumigator in a field of cabbage plants.

PACKING and SHIPPING

Our plants are carefully packed in light, wire bound, wood veneer crates, as shown in the illustration. From long experience we find these crates are much superior to any other kind of container. They will stand rough handling, will not crush in like paper boxes, and are so ventilated as to deliver the plants to you in perfect condition. All plants are tied in bunches of 50, the tops are ventilated and the roots protected from exposure to the air. We guarantee to deliver plants anywhere in the United States.

CARE of PLANTS on ARRIVAL

As soon as your plants come, take them out of the crates and set them out. If not ready to set, trench them out, keeping the tops dry and the roots moist, and they will keep for a reasonable time.

TERMS

Plants are sold on a cash basis. Please make remittance by Post-office or Express Money Order, Bank Draft, Check, or Registered Letter and save extra charges for C.O.D. returns. We will ship C.O.D. if you prefer it. BE SURE TO STATE DATE YOU WANT SHIPMENT MADE and WRITE YOUR NAME and FULL ADDRESS PLAINLY.
